

lateral strut afo

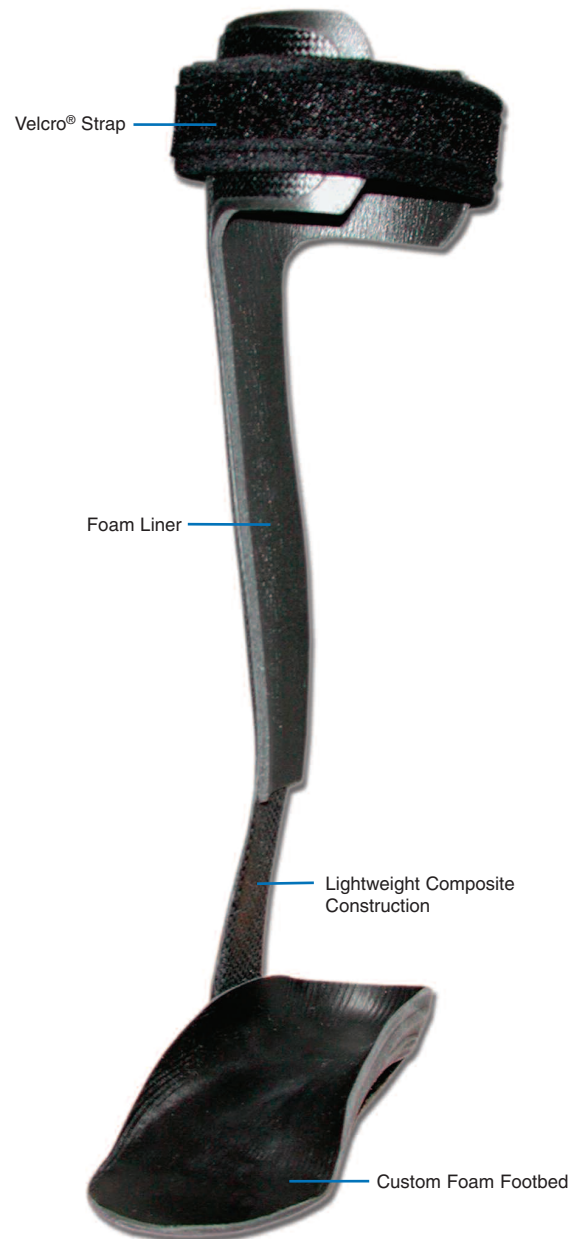

by CUSTOM COMPOSITE MFG, INC

The Lateral Strut AFO offers patients a flexible, extremely lightweight brace that maximizes energy storage and release with each step. It fits easily into shoes and can be used for patients of all ages.

The Lateral Strut AFO is custom made from a cast of the patient and comes with a foam liner, Velcro® strap and custom foam footbed.

For Casting Instructions, visit www.cc-mfg.com or call us toll free at 866-273-2230.
